## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul C. Onderick on 4/15/2008.

The application has been amended as follows:

- Claim 12, line 8, change "may be" to - - can be - - .

### **REASONS FOR ALLOWANCE**

-- The following is a statement of reasons for the indication of allowable subject matter for the listed claims:

Claim 1: The prior art does not show a housing, a receiving apparatus attached to housing with at least one LED, drive device for adjustment of receiving apparatus

such that at least one LED can be selectively positioned toward a light emission aperture.

Claim 12: The prior art does not show a housing, receiving apparatus having axis of rotation, an LED receiving apparatus rotatably mounted within housing, the plurality of LED's on receiving apparatus selectively rotationally positioned toward the light emission aperture.

This in combination with all the other elements pertaining to each of the above mentioned claims are reasons for allowable subject matter and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior listed on PTO form 892 that is made of record is considered pertinent to applicant's disclosure because it shows the state of the art with respect to applicant's claimed invention.
